CAREER OBJECTIVE

To succeed in an environment of growth and excellence and earn a job that provides me job satisfaction and self-development and helps me achieve personal as well as organizational goals.

INTERNSHIPS

Python/Django Internship at Tisser Technologies LLP(JULY 2024)

HOSPITAL MANAGEMENT SYSTEM(JULY 2024)

The primary objective of this project is to design and implement a Hospital Management System with an intuitive user interface. The system will provide functionalities such as viewing hospital offers, accessing information about available doctors and departments, scheduling appointments, and exploring available therapies.

Tools Used : Python,Django,SQL,HTML,CSS

PROJECTS

EVENT MANAGEMENT SYSTEM(NOVEMBER 2024)

The Event Management Web Application is designed to streamline the process of organizing and managing events, providing users with an intuitive and feature-rich platform. This application offers comprehensive functionality for both event organizers and attendees, making it easier to handle event logistics, scheduling, ticketing, and promotional activities

Tools Used : React js,Express,Node js,MongoDB

FACILITIES MANAGEMENT SYSTEM(MAY 2023)

The project "FACILITIES MANAGEMENT SYSTEM" is a web application used to manage the facilities offered by the college. We are trying to ease the access of the facilities available in the college. To properly take advantage of the available college resources proper guidance and management is crucial. Facilities like seminar halls, mini auditoriums, etc. will be used more efficiently with our system.

Tools used: HTML, CSS, PHP, MySQL

CERTIFICATIONS

- Introduction to Artificial Intelligence(Infosys Springboard August 2024)
- Introduction to NLP(Infosys Springboard August 2024)
- Python Programming(Coursera February 2024)

ACHIEVEMENTS

Student Coordinator of SRISHTI 2024 (National Level Technical Project Exhibition & Competition)
